

I drive 35 minutes to work and back five days a week. KLove and it's music sets my day on an uplifting course as I start my work day. It relaxes and encourages me as I drive home. KLove is a wonderful source of music and resources for our younger people. In a world where secular music is saturated with liberal views and a negative perspective of the world, KLove is a great alternative to encourage and give hope, while expressing love. KLove encourages people to take the higher road and that they are not on there own. People turn on the Radio to be entertained by music and/or interesting programs. They do not want 50% of what they are listening to to be commercials. KLove provides a wonderful balance of music and encouragement. I hope this note expresses my deep enjoyment of KLove and it's importance to our communities.
